Prior to Your Purchase

Bryant has a history of doing whatever it takes to deliver trusted quality, comfort and value to millions of homeowners nationwide. The Evolution® V air conditioner helps create an exceptionally comfortable indoor environment with extra-high year-round efficiency and money-saving operation.

**Efficiency**
- Enjoy the comfort of your home this summer knowing the Evolution V is providing up to an impressive 19.0 SEER (Seasonal Energy Efficiency Ratio) efficiency. That easily rivals many of the most miserly air conditioner models available. And because this system tackles humidity as well, you might squeeze some extra savings with slightly higher thermostat settings in the cooling season.

**Comfort**
- It starts with the Evolution® System then continues with our exclusive comfort-enhancing variable-speed operation and Perfect Humidity® technology. The Evolution V air conditioner combines sophisticated comfort technology to elevate your home’s environment. Precise, consistent comfort throughout the home, superior humidity management, and more combine to give your family the comfort it deserves.

**Outdoor Controls**
- Our inverter-driven variable-speed scroll compressor operates nearly continuously to provide quiet, even comfort. Designed with several built-in reliability features, this component has proven its dependability by installations in millions of units worldwide.

**Indoor Comfort You Can Rely On**

**EXTRA-EFFICIENT**
- Inverter-driven variable-speed capabilities push the Evolution® V air conditioner to an extra-efficient, up to 19.0 SEER cooling efficiency. It’s well above standard systems and competitive with the highest efficiency air conditioners available.

**ENVIRONMENTALLY SOUND**
- Bryant air conditioners and heat pumps have been available with environmentally sound Puron® refrigerant since 1996. That’s well before our competitors began offering a solution that keeps you comfortable without depleting the Earth’s ozone layer. It also speaks to the incredible reliability we have achieved with these products.

**NEARLY CONTINUOUS COMFORT**
- Our inverter-driven variable-speed scroll compressor operates nearly continuously to provide quiet, even comfort. Designed with several built-in reliability features, this component has proven its dependability by installations in millions of units worldwide.

**PRECISION COMFORT & EFFICIENCY**
- Our Evolution® electronic inverter control works with the Evolution® Connex™ control inside your home for the ultimate command of indoor comfort. "Intelligent" circuitry monitors system operation and automatically adjusts settings to deliver precision temperature and humidity control while also maximizing energy management.

**EXTRA QUIET OPERATION**
- The Evolution V air conditioner operates within a range of sound levels between ?? and ?? dBA. Our exclusive AeroQuiet System II™ features an AeroQuiet top, compact ECM fan motor, forward-swept fan blade, sound hood and split-post compressor grommets to help deliver quiet operation by maximizing airflow and minimizing vibration.

**PEACE OF MIND**
- The Evolution V monitors several critical system functions and adjusts operation to maximize performance and system reliability. With built-in protection features and Bryant quality testing you can be confident with your comfort.

The Evolution of Comfort

Bryant is at the forefront of a consumer revolution with its exclusive Evolution® System. This system combines the Evolution® V air conditioner with our most advanced and energy-efficient Evolution® Connex™ control and the recommended Bryant Evolution furnace or air conditioner to provide you with comfort, peace and security—every day of the year—regardless of your location. Intelligence and environmental awareness influence consumer thinking, head-on and delivered the products to meet or exceed expectations. Today, as energy costs and increased environmental awareness influence consumer thinking, Bryant proudly offers the Evolution® V air conditioner. It’s a variable-speed air conditioner that does it all. The resulting airflow is consistent at all speeds, providing tight control over temperatures and humidity. Bryant and Evolution® Connex™ control allow the air conditioner to adjust at lower speeds to reduce up-and-down temperature swings associated with typical air conditioners.

**Complete Summer Comfort**

Everybody loves heat, but it’s not just the heat...it’s the humidity. That’s why the Evolution® V air conditioner combines the comfort picture for your home with Perfect Humidity® technology when installed as part of a complete Evolution® System. Perfect humidity can significantly improve indoor humidity control during the summer months compared to standard comfort systems. In fact, typical systems only dehumidify when indoor humidity is under control, you might reap some efficiency benefits as well by enjoying indoor comfort at slightly higher thermostat settings during the summer. In fact, typical systems only dehumidify when indoor humidity is under control, you might reap some efficiency benefits as well by enjoying indoor comfort at slightly higher thermostat settings during the summer. And, because humidity is under control, you might reap some efficiency benefits as well by enjoying indoor comfort at slightly higher thermostat settings during the summer.

Consider taking your year-round comfort to the next level by creating a Bryant HYBRID HEAT® dual fuel system. A HYBRID HEAT system automatically chooses the most efficient fuel source during the heating season to provide the ultimate defense against unpredictable fuel costs.

**Complete Confidence**

Beat all, you can be confident in your comfort because the Evolution® V air conditioner delivers all of the performance backed by a company committed to customer satisfaction. From initial design through product testing and final assembly, we go beyond the industry’s expectations for quality to be sure that every product we make is of a standard excellence that you and your family deserve.

For more than a century, North Americans have associated Bryant quality and cooling products with the highest standards of interior comfort. Through commitment and dedication, we have consistently met every challenge head-on and delivered the products to meet or exceed expectations. Today, as energy costs and increased environmental awareness influence consumer thinking, Bryant proudly offers the Evolution® V air conditioner. It’s a variable-speed air conditioner that does it all. The resulting airflow is consistent at all speeds, providing tight control over temperatures and humidity. Bryant and Evolution® Connex™ control allow the air conditioner to adjust at lower speeds to reduce up-and-down temperature swings associated with typical air conditioners.

Setting Standards Since 1904
