Comfort for Life

Daikin is a global leader for indoor comfort, with millions of systems installed throughout the world.

Daikin has been improving the comfort of its customers with exceptional products and services for many generations.

To explore all of our solutions for premium indoor Comfort for Life, visit www.daikinac.com.

Elevate your expectations and get more out of your home's indoor comfort system performance

As you think about the functionality of your home's indoor comfort system, the Daikin brand is ready to help you achieve control, energy efficiency and long-term peace of mind. Take that attention to quality one step farther by choosing a Daikin brand energy-efficient ductless split system. We have designed and engineered all of our products to provide years of consistent indoor comfort – delivering you and your family premium *Comfort for Life*.

Bold performance

A better understanding of how people inhabit their living spaces has led to products designed to create indoor environments that help use energy resources more effectively. Daikin heat pumps feature streamlined, wall-mounted indoor units paired with quietly compact outdoor units. The Daikin brand KE Series is designed to blend in discreetly with any home design and are ideal for single rooms, enhancements and additions up to 1,460 square feet.*

* Equipment selection should always be based on detailed load calculation performed by a qualified technician.

Smart inverter technology

Integrated with an inverter variable-speed compressor, KE ductless systems deliver the capacity required to maintain desired room conditions, typically reducing energy consumption by up to 30% or more (compared to traditional fixed-speed ducted systems). This technology minimizes temperature fluctuations and provides continuous cooling and heating comfort.

Experience comfort

Designed for *Comfort for Life*, the Daikin KE Series units include features to ensure a comfortable experience every moment. From the wide angle louver design to the auto-swing and comfortable mode controller settings, effective heating and cooling is ensured throughout the space.

Quiet operation

Utilizing inverter technology to maintain comfort settings, Daikin systems most often operate at low speeds with indoor sound levels as low as 22 decibels (dB) and outdoor sound levels as low as 48 dB. Activate the indoor unit quiet operation and sound levels drop by 2-3 dB for gentler heating and cooling and quiet operation.

Individual comfort and control

Individual temperature control provides comfort for the entire space. With effective cooling and heating coverage and quiet operating sounds, these systems combine outstanding comfort control with lifestyle convenience all at the touch of a button.

Count on a Daikin brand control to deliver convenience and premium *Comfort for Life* to your family for years and years.

Air purification for comfortable breathing

Activated by the exposure to natural light, the washable titanium apatite photocatalytic air purification filter traps and helps to deactivate bacteria. This filter lasts for up to three years with proper maintenance.

COMFORTABLE LIMITED WARRANTY* PROTECTION

*Complete warranty details available from your local dealer or at www.daikinac.com. To receive the 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.

DAIKIN: THE PREMIUM BRAND INDUSTRY LEADER

Daikin Industries, Ltd. (DIL) is a global Fortune 1,000 company which celebrated its 90th anniversary in May 2014. The company is recognized as the largest HVAC (Heating, Ventilating, Air Conditioning) manufacturer in the world. Daikin is primarily engaged in developing indoor comfort products and systems and refrigeration products for residential, commercial and industrial applications. Its consistent success is derived, in part, from a focus on innovative, energy-efficient and premium quality indoor climate and comfort management solutions.

Improving your home's complete indoor comfort system should not be an afterthought.

Whether it's time to replace a component in an existing central HVAC system, or to install a totally new system, Daikin brand products can provide dependable comfort and efficiency for your family – for every season – *Comfort for Life*.

Clean Comfort™ indoor air essentials

Indoor comfort in your home is about more than just adjusting the temperature on the thermostat. In fact, a central heating and cooling system offers just the basics with regard to enhanced comfort for you and your family. Indoor air quality products and systems quite frequently are treated as accessories. We define them as indoor air essentials:

- Filtration
- Purification
- Ventilation
- Humidity Control
