Prior to Your Purchase

Bryant has a history of doing whatever it takes to deliver trusted quality, comfort and value to millions of homeowners nationwide. The Evolution® Extreme heat pump offers an exceptionally comfortable indoor environment with industry-leading efficiency and money-saving operation.

Efficiency

• Up to 13 HSPF (Heating Seasonal Performance Factor) heating leads the industry in energy efficiency. It can save money on your monthly heating bills. When you consider that heat pumps often spend more hours heating than cooling in a typical year, that number is significant. And when the system switches over to cooling, you’ll see an impressive 20.5 SEER (Seasonal Energy Efficiency Ratio) efficiency that rivals even the most miserly air conditioner models available.

Comfort

• The Evolution® Extreme heat pumps contain all of Bryant’s most sophisticated comfort technologies to elevate your home’s environment. Precise, consistent comfort throughout the home, superior humidity management, air that’s warm to the touch even when it’s down to single digits outside and more combine to give your family the comfort it deserves.

Indoor Comfort You Can Rely On

EXTREME EFFICIENCY

Inverter-driven variable-speed capabilities like those in the Evolution® Extreme heat pump up to an industry-best 13 HSPF heating efficiency. That’s a number that other manufacturers just can’t match with split system, air source heat pump. Bryant lets you enjoy the savings now while others try to catch up.

ENVIRONMENTAL SOUND

Bryant heat pumps and air conditioners have been available with environmentally sound Puron® refrigerant since 1996. That’s well before many competitors began offering a solution. In fact, Bryant was the first to offer Puron® refrigerant. Today, this Earth-friendly alternative continues to speak the incredible reliability we’ve established with these products.

CONTINUOUS COMFORT

Our inverter-driven variable-speed scroll compressor operates with shorter run times to provide quiet, smooth operating comfort. Designed for use with Puron® refrigerant, it should provide years of environmentally sound, energy efficient performance.

PREDICTION COMFORT & EFFICIENCY

Our Evolution® electronic control board learns with the Evolution® Control inside your home for the ultimate in comfort. ‘Intelligent’ circuitry monitors system operation and continually adjusts settings to deliver precision temperature and humidity control while also maximizing energy management.

EXTRA QUIT OPERATION

The Evolution® Extreme heat pump operates within a range of sound levels between 58 dBA in cooling mode and as low as 62 dBA in heating mode. Our exclusive AeroQuiet System™ features an AeroQuiet top, integrated fan motor, forward-swept fan blade, compressor vibration isolator plate, sound hood and split-post compressor grommets to help deliver quiet operation by maximizing airflow and minimizing vibration.

PEACE OF MIND

Several critical system functions are monitored by the Evolution® Connex™ Control, which adjusts operation to maximize performance and system reliability. With built-in protection features and Bryant quality testing, you can be confident with your comfort.

COOLSCOOLS have associated Bryant® heating and cooling comfort. Through commitment and dedication, warm, comfortable heating as outdoor temperatures plummet. Because it’s matched we have consistently met every new challenge head-on and delivered the products to meet or exceed expectations. Today, on-ron energy sources and increased environmental awareness influence consumer thinking. Bryant proudly offers a variable-speed heat pump with industry-leading efficiency and superior comfort – the Evolution® Extreme heat pump. The Evolution Extreme heat pump delivers warm, constituting heating as outdoor temperature plummeted. Because it’s matched with a variable-speed fan too cool or warm, it provides superior humidity control all seasons even when it’s not cooling. And, it can save significantly on-run time all year long. Switching up to an in-home comfort system 12 HSPF (Heating Seasonal Performance Factor) heating and up to an exceptional 26 SEER (Seasonal Energy Efficiency Ratio) cooling. Designed, built business, and installed by your trusted and professional Bryant dealer, the Evolution Extreme heat pump provides the premium comfort you and your family deserve.

Extremely Consistent Comfort

Your home is your refuge, a comfortable retreat from the unpredictable weather outside. So partner yourself with a heat pump that delivers comfort through extreme weather conditions. The Evolution® Extreme heat pump delivers consistent comfort control with variable-speed operation to precisely match heat pump performance to current conditions. The resulting comfort is one that is more than just a thermostat. It is your living schedule. Intelligent electronics track your input, change and control the system any time, anywhere. The Evolution® Connex™ Control is much more than just a remote. It is your ultimate defense against unpredictable fuel costs. Bryant is at the forefront of a comfort revolution with the exclusive Evolution® System.

Complete Comfort and Peace of Mind

The Evolution® Extreme heat pump improves comfort all year long with Perfect Humidity® technology. Ai matched with a variable-speed gas furnace or fan coil during the cooling season. Perfectly tuned technology can significantly improve indoor humidity control compared to standard comfort systems. In fact, optimized systems are responsible for keeping you cool and comfortable all summer long. In the extreme, it means coming to you right when you need it most.

The Evolution® Connex™ Control is a transformer. It is a single source of precision temperature, humidity and indoor air quality control.

Peace of Mind

A great warranty helps you enjoy your comfort with confidence. Bryant builds trusted reliability into every product, then provides additional peace of mind with an extended warranty protection. To the original owner, the Bryant® Evolution® Extreme heat pump is covered by a 15-year part limited warranty (based on registration and automatically reviewed in 5-year period following review). See warranty certificate at brentford.com for complete details.

The Evolution of Comfort

Bryant is at the forefront of a comfort revolution with the exclusive Evolution® System. This system combines the Evolution® Extreme heat pump with ourodesk, sophisticated Evolution® Connex™ Control and the recommended Bryant Evolution furnace or heat pump to put more comfort, power and ease-of-use at your fingertips than any other comfort system. Full seven-day programmable allows precise temperature and humidity control that matches your living schedule. Intelligent electronics track system operation and identifies the very best combination of comfort and energy saving operation. Accessories and system monitors provides heat-based messages on the large LED screen telling you when it's time for a filter change, routine maintenance and more.

Ask your dealer about combining the Evolution® Extreme heat pump with a supplemental Bryant Evolution® gas furnace and Evolution® Connex™ Control to create a Bryant HYBRID HC® Dual Fuel System. This system automatically chooses the most efficient fuel source for heating to provide the ultimate defense against unpredictable fuel costs.

Performance

The Evolution® Extreme heat pump improves comfort all year long with Perfect Humidity® technology. It can match with a variable-speed gas furnace or fan coil during the cooling season. Perfectly tuned technology can significantly improve indoor humidity control compared to standard comfort systems. In fact, optimized systems are responsible for keeping you cool and comfortable all summer long. In the extreme, it means coming to you right when you need it most.

It Keeps Heating When Others Can't

The technology that makes the Evolution® Extreme heat pump deliver such consistent comfort also keeps heating efficiently when standard systems have already switched to auxiliary heat sources. In fact, you can expect heat to your valves even when its not cooling. This system  continues to remove moisture even when it isn't actively cooling so you can stay dry, cool and comfortable all summer long. This system  is covered by a 10-year parts limited warranty upon timely registration of your new equipment. See warranty certificate at brentford.com for complete details.

Bryant Delivers Extreme Comfort, Savings and Quiet

It Keeps Heating When Others Can’t

The technology that helps the Evolution® Extreme heat pump deliver such consistent comfort also keeps heating efficiently when standard systems have already switched to auxiliary heat. In fact, you can expect air that’s warm to the touch coming from your registers, even down to single-digit temperatures outside. That’s a statement most other heat pump systems simply cannot make, and a reason why this system can be a great option in areas not typically associated with heat pump use.

Extremely Consistent Comfort

Your home is your refuge, a comfortable retreat from the unpredictable weather outside. So, picture yourself with a heat pump that delivers comfort through extremely consistent temperature control. The Evolution® Extreme heat pump combines intelligent system control with variable-speed operation to precisely match heat pump performance to current conditions. This matching results in comfort that’s just right, efficiency that’s off the charts, and operation that’s incredibly quiet.

Complete Comfort and Peace of Mind

The Evolution® Extreme heat pump improves comfort all year long with Perfect Humidity technology. When matched with a variable-speed gas furnace or air-cooled unit during the cooling season, Bryant’s humidity technology can significantly improve indoor humidity control compared to standard comfort systems. In fact, variable system operation is the only way to maintain comfort during the entire cooling season. This system combines to remove moisture even when it isn’t visibly need in the air (even on cloudy days), providing reliable comfort all summer long.

Peace of Mind

A great warranty helps you enjoy your comfort with confidence. Bryant builds trusted reliability into every product, then provides additional peace of mind with excellent warranty protection.

The Evolution of Comfort

Bryant is at the forefront of a comfort revolution with its exclusive Evolution® System. This system combines the Evolution® Extreme heat pump with our sleek, sophisticated Evolution® Connex™ Control and the recommended Evolution® furnace or fan coil to make your home as comfortable as it can be. The Evolution® Connex™ Control is much more than just a thermostat. It is your single source of precision temperature, humidity and energy at your fingertips.

Perfect Humidity

Perfect Humidity technology can significantly improve indoor humidity control compared to standard comfort systems. In fact, variable system operation is the only way to maintain comfort during the entire cooling season. This system combines to remove moisture even when it isn’t visibly need in the air (even on cloudy days), providing reliable comfort all summer long.

The Evolution® Extreme heat pump is covered by a 10-year parts limited warranty. See warranty certificate at bryant.com for complete details.

The Evolution® Connex™ Control is much more than just a thermostat. It is your single source of precision temperature, humidity and energy at your fingertips.

Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet ENERGY STAR criteria.

Bryant Delivers Extreme Comfort, Savings and Quiet

Extremely Consistent Comfort

Your home is your refuge, a comfortable retreat from the unpredictable weather outside. So you deserve a heat pump that delivers consistent comfort through sophisticated control. The Evolution® Extreme heat pump provides intelligent system control with variable-speed operation to precisely match your heat pump performance to current conditions. This innovative system control matches heat pump output to the comfort level you desire, and operation that is incredibly quiet.

It starts with our intuitive and intelligent Evolution® Control. This central nervous system monitors comfort needs and adjusts the home’s variable-speed heat pump speed and output to maintain a custom comfort setting for you and your family. And, optional remote connectivity lets you monitor, change and control the system any time, from anywhere.

Complete Comfort and Peace of Mind

The Evolution® Extreme heat pump improves comfort all year long with Perfect Harmonic® Technology. This advanced air source heat pump features a variable-speed, inverter-driven compressor that matches heat pump output to the comfort setting you desire, and operation that is incredibly quiet.

It’s all about matching heat pump output with appropriate coil components to meet ENERGY STAR criteria. Ask your contractor for details or visit www.energystar.gov.

Perfect Comfort and Savings

As the temperature outside rises, the Evolution® Extreme heat pump maintains a comfortable indoor temperature. Because it’s matched with appropriate coil components, the Evolution® Extreme heat pump delivers the highest energy efficiency ratings of any Bryant heat pump. Best of all, you can have this heat pump as part of a complete Bryant solution from your trusted Bryant dealer.

Peace of Mind

A great warranty helps you enjoy your comfort with confidence. Bryant builders stand behind every product, then provide additional peace of mind with an optional labor warranty.

The Evolution® Extreme heat pump is covered by a 15-year parts limited warranty for indoor unit main components and a 10-year parts limited warranty for indoor unit auxiliary components.

To the original owner, the Bryant® Evolution® Extreme heat pump is covered by a 15-year parts limited warranty for indoor unit main components. Ask your dealer about optional labor warranties.

* Warranties require that the Evolution® Extreme heat pump be installed by a qualified Bryant installer, and that the original owner must provide proper system maintenance to keep the system running at its designed output. See warranty certificate at bryant.com for complete details.

The Evolution® Extreme heat pump is covered by a 15-year parts limited warranty for indoor unit main components and an optional labor warranty. Ask your dealer about optional labor warranties.

The Evolution® Extreme heat pump is covered by a 15-year parts limited warranty for indoor unit main components and a 10-year parts limited warranty for indoor unit auxiliary components. The optional labor warranty is available within the first 90 days of installation or within the first 10 years of operation, whichever occurs first. See warranty certificate for complete details.

This system combines the Evolution® Extreme heat pump with our sleek, sophisticated Evolution® Connex™ Control and the recommended Bryant Evolution furnace or coil to provide the very best in comfort and efficiency. Full, seven-day programmable thermostat is included in the Evolution® Extreme heat pump system warranty. See warranty certificate for complete details.
Prior to Your Purchase

Prior to Your Purchase

Bryant has a history of doing whatever it takes to deliver trusted quality, comfort and value to millions of homeowners nationwide. The Evolution® Extreme heat pump offers an exceptionally comfortable indoor environment with industry-leading efficiency and money-saving operation.

Efficiency

• Up to 13 HSPF (Heating Seasonal Performance Factor) heating leads the industry and means it can save energy on your monthly heating bills. When you consider that heat pumps often spend more hours heating than cooling in a typical year, that number is significant. And when the system does switch over to cooling, you’ll see up to an impressive 20.5 SEER (Seasonal Energy Efficiency Ratio) efficiency that rivals even the most miserly air conditioner models available.

Comfort

• The Evolution® Extreme heat pump combines all of Bryant’s most sophisticated comfort technologies to elevate your home’s environment. Precise, consistent comfort throughout the home, superior humidity management, air that’s warm to the touch even when it’s down to single digits outside and more combine to give your family the comfort it deserves.

Indoor Comfort You Can Rely On

1. Extreme Efficiency

Inverter-driven variable-speed capabilities make the Evolution® Extreme heat pump up to an industry-leading 13 HSPF heating efficiency. That’s a number other manufacturers just can’t match with a split system, air source heat pump. Bryant lets you enjoy the savings year-round while trying to catch up.

2. Environmentally Sound

Bryant heat pumps and air conditioners have been available with environmentally sound Puron® refrigerant since 1996. That’s well before industry competitors began offering a solution. Bryant’s environmental stewardship is bolstered by the Earth’s coming up as well as the incredible reliability we’ve achieved with these products.

3. Comfortable Comfort

Our inverter-driven variable-speed scroll compressor operates with longer run times to provide quiet, smooth operating comfort. Designed for use with Puron® refrigerant, it should provide years of environmentally sound, energy-efficient performance.

4. Precision Comfort & Efficiency

Our Evolution® electronic control board works with the Evolution® Control inside your home for the ultimate combination of indoor comfort. “Intelligent” circuitry monitors system operation and automatically adjusts settings to deliver precision temperature and humidity control while also maximizing energy management.

5. Extra Quiet Operation

The Evolution® Extreme heat pump operates within a range of sound levels between 58 dBA in cooling mode and as low as 62 dBA in heating mode. Our exclusive AeroQuiet System™ features an AeroQuiet top, integrated fan motor, forward-swept fan blade, compressor vibration isolator plate, sound hood and split-post compressor grommets to help deliver quiet operation by maximizing airflow and minimizing vibration.

6. Peace of Mind

Several critical system functions are monitored by the Evolution® Connex™ Control, which adjusts operation to maximize performance and system reliability. With built-in protection features and Bryant quality testing, you can be confident with your comfort.
